

# ICT

EXAM BOARD: OCR

## WHAT WILL I STUDY?

**Year 12:**

**Two mandatory units:**

- IT fundamentals (exam unit)
- Global Information (exam unit)

**Year 13:**

**Pathway 1 (Extended certificate in IT):**

- Cyber Security (exam unit)
- Project Management
- Product Development

**Pathway 2 (Introductory Diploma in IT):**

- Application Design
- Project Management
- Product Development

## HOW WILL I BE ASSESSED?

Depending on pathway, but all routes have at least two exam components. Coursework grade recommendations are moderated by OCR's Visiting Moderator.

## MINIMUM GCSE REQUIREMENTS

- English and Maths grade 4

## POSSIBLE PROGRESSION PATHWAYS

ICT enables students to develop skills that are crucial to employers and universities alike.

Students could consider continuing ICT in higher education or applying for one of the numerous ICT higher apprenticeships that are available every year.

It could however support students down a number of alternative paths such as; business studies, marketing, graphic design or video editing, to name a few.
